Rankings are based on a weighted analysis of unit sales from more than twenty thousand booksellers where a wide range of general interest books are sold. These include hundreds of independent book retailers; national, regional and local chains; online and multimedia entertainment retailers; university, gift, supermarket, discount, department stores and newsstands. An asterisk (\*) indicates that a book's sales are barely distinguishable from those of the book above. A dagger (†) indicates that some bookstores report receiving bulk orders. Distributed in The United States and Canada by Ingram Publisher Services and made available at your favorite bookstore. In an effort to support local communities, raise awareness and funds, one percent of all book sales are donated to Habitat for Humanity.
